

Technion Israel Institute of Technology
The Wolfson Department of Chemical Engineering

INVITATION

The Wolfson Department of Chemical Engineering and the student members of the companies: **Blue Technologies**, **Red Associates** and **Green Engineering**, take the pleasure of inviting you to attend the **process package presentations** of the course:

054410 PLANT DESIGN

To be held at the Department of Chemical Engineering, Technion, Hall 1
on Wednesday, 14th June 2006 from 17:30 – 20:00

Students enrolled in this course participated in the development of a process package, as an "employee" in an imaginary company, assigned to a section group. Three engineering companies, **Blue Technologies**, **Red Associates** and **Green Engineering**, are competing for a tender to develop a **complete process package** for a natural gas processing plant. Each company was assigned one of the more successful process designs prepared in the Winter Semester by course 054402.

Schedule:

17:30 – 17:45 – Welcome: Prof. Daniel Lewin and Mr. Alon Goldis (Course instructors)
17:45 – 18:15 – **Blue Technologies**
18:15 – 18:45 – **Red Associates**
18:45 – 19:15 – **Green Engineering**
19:15 – 19:30 – Wrap-up: Prof. Daniel Lewin
19:30 – 20:00 – Pizza and Beer

Kindly call Sharon at 04-8292820 to confirm your participation.
